

Name _____

Time-Traveling Adventures of a Teenage Inventor

Open-Ended Response Answer Key

1. Possible Answer: Some of Lucy's challenges included fitting into different historical periods, gaining the trust of people in those eras, and adapting to the technology and culture of the time. She overcame these challenges by using her knowledge and inventive skills to help those she encountered and by developing friendships and alliances.
2. Possible Answer: Lucy's experiences taught her about the power of history, the importance of standing up for what's right, and the potential for innovation to shape the future. These lessons inspired her to become a renowned historian and inventor in her own time.
3. Possible Answer: Answers may vary. Some may choose to visit a particular era of historical interest, such as ancient Egypt or the Renaissance, while others may choose an era that aligns with personal interests or curiosity.
4. Possible Answer: Lessons include the value of knowledge, innovation, and helping others, as well as the idea that individuals, even teenagers, can make a significant impact on history and society.
