Teenage Rebellion: A Slam on Choices

In the realm of teenage life, where changes unfold,
Let's talk about rebellion, a story to be told.

It's not just about rules or being contrary,
There's more to the story, so let's not be wary.

Teenagers rebel, it's a part of the deal,
To discover their voice, to find what is real.

It's not always about causing strife,
But a quest for independence, defining their life.

Peer pressure can steer them in a way,
To make choices that lead them astray.

Sometimes it's the need for attention and thrill,
That pushes them over, against their own will.

But rebellion has consequences, that's true,
It can lead to trouble and feeling blue.

Broken trust, strained relationships in the mix,
It's a delicate balance, a tricky fix.

So, let's understand why rebellion occurs,
And guide them with love, as life often blurs.

Let's support their choices, their dreams, their quest,
So they grow into adults, feeling truly blessed.
