

Name _____

Can Repairing the Ozone Layer Help Fight Climate Change Too?

Open-Ended Response Answer Key

1. Because it got almost every country to agree, and it had a clear goal and strong science behind it.
2. It shows that people can solve global problems when they cooperate and listen to experts.
3. Use less electricity, recycle, bike or walk, and remind others to care about the environment.
4. It helped protect us from UV rays and also reduced gases that cause climate change at the same time.
