

Name _____

Lion Predators and Threats in the Wild

Open-Ended Response Answer Key

1. Lions are called the "kings of the jungle" because they are strong and powerful, but they still face threats.
2. Hunting in groups helps lions catch larger prey and increases their chances of success.
3. If lion habitats shrink, food would become scarce, and lions could struggle to survive.
4. Protecting lions from poaching helps keep their population healthy and prevents them from going extinct.
