

Name _____

Tidal Terror: The Effects of Tsunamis Triggered by Underwater Earthquakes

Open-Ended Response Questions

1. Research and discuss a notable historical tsunami event triggered by an underwater earthquake. Describe its effects on coastal communities and the response to the disaster.
2. Explore the importance of early warning systems and preparedness measures in tsunami-prone regions. How do these efforts help mitigate the impact of tsunamis?
3. Reflect on the challenges of rebuilding and recovering from a devastating tsunami. What steps can governments and communities take to enhance resilience and facilitate recovery?
4. Discuss the role of international cooperation and scientific research in improving our understanding of tsunamis and our ability to predict and respond to them effectively.
