

Name _____

The Majestic Tiger: What Does It Look Like?

Open-Ended Response Answer Key

1. A tiger's orange fur and black stripes help it hide in tall grasses and forests, making it easier to hunt prey and avoid predators.
2. Each tiger's unique stripe pattern may help them recognize each other and blend into their specific environments.
3. Tigers are the largest of the big cats, with bold orange fur and stripes that set them apart. They are also solitary hunters, unlike lions, which live in groups.
4. People can help protect tigers by supporting wildlife conservation efforts, creating protected habitats, and stopping illegal hunting.
