

Name _____

Tigers: Majestic Hunters of the Wild

Short Answer Key

1. Each tiger's stripe pattern is unique, like human fingerprints.
2. Tigers need water to drink frequently and to survive in their habitats.
3. Tigers typically eat deer, wild boar, birds, and fish.
4. By hunting herbivores, tigers prevent overgrazing, which protects vegetation.
5. Tigers face habitat loss and poaching as major threats.
