## What Happens if We Cut Down Too Many Trees

### Open-Ended Response Questions

1. Discuss the long-term consequences of excessive deforestation on global climate patterns and its role in climate change.
2. Imagine you are part of a conservation organization. Outline a plan of action to raise awareness about deforestation and engage communities in forest protection efforts.
3. Explain how reforestation projects can help restore ecosystems and combat the negative effects of deforestation. Provide examples of successful reforestation initiatives.
4. Analyze the economic and ecological benefits of sustainable forestry practices and their potential to balance human needs with forest conservation.
