

Name _____

The Deadly Puzzle: The Chicago Tylenol Murders

Short Answer Key

1. The victims in the Chicago Tylenol Murders died after ingesting Tylenol capsules laced with cyanide.
2. In response to the deaths, Johnson & Johnson initiated a nationwide recall of Tylenol products.
3. Tracing the source of the tainted Tylenol was challenging because the bottles had been tampered with in various stores, making it difficult to pinpoint the exact point of contamination.
4. The Chicago Tylenol Murders brought lasting changes to product safety, including the implementation of tamper-evident packaging and stricter manufacturing and distribution practices.
5. No suspects were charged or convicted in connection with the Chicago Tylenol Murders.
