## Uncontrolled Power

### Open-Ended Response Answer Key

1. Some might say yes because of curiosity, while others may say no due to the risks of changing history.
2. Some may argue that Eckels is responsible because he broke the rules, while others might say the company should have been more careful about choosing hunters.
3. Answers could include real-world examples like environmental disasters, space exploration challenges, or unintended consequences of new technology.
4. Responses might explore how people should be more cautious with things like artificial intelligence, medicine, and climate change solutions.
