## The Reversed Universe Portal

### Short Answer Key

1. The kids deciphered the clues in the old book by following instructions, solving riddles, and navigating hidden passages to find an ancient mirror.
2. The kids encountered unusual things such as talking animals, lakes that flowed upwards, gravity-defying houses, and a sky that was orange.
3. The challenges in the reversed universe included solving reverse puzzles, communicating with talking animals, and adapting to the reversed world's physics. They overcame them by using their wits, cooperation, and problem-solving skills.
4. The ancient mirror served as the portal to the reversed universe. When touched, it created a vortex that transported the kids to the parallel world.
5. The kids unlocked the reversed portal by thinking backward and using their newfound knowledge of the reversed universe to decipher the final puzzle.
