

Name _____

Titanic: The Unsinkable Ship?

Short-Answer Answer Key

1. The Titanic was 882 feet long and 175 feet tall.
2. It had luxurious features like a grand staircase and fancy cabins.
3. Second-class cabins were simpler, but they still had libraries and dining areas.
4. It had 16 compartments in its hull that could seal off water.
5. Designers believed lifeboats weren't as necessary on a strong ship.
