## The Vaping Wave: Understanding the Rise and Consequences Among Young People

### Open-Ended Response Questions

1. Discuss the role of nicotine in vaping and why nicotine addiction is a concern for young people who vape.
2. Explain the potential health risks associated with vaping, including both immediate and long-term effects.
3. Share your thoughts on the effectiveness of regulations and policies in deterring youth vaping and protecting their health.
4. Imagine you are a school counselor. How would you educate students about the risks of vaping, and what strategies would you use to prevent vaping among your students?
