Unveiling the Mystery: Internet vs. World Wide Web

Open-Ended Response Questions

1. Imagine a world without the Internet but with the World Wide Web. How would it impact our access to information and communication? Provide examples to support your answer.
2. In what ways has the World Wide Web changed the way we access and share information compared to traditional methods like books and newspapers?
3. Discuss an instance where you've used the Internet for something other than browsing webpages. Explain the difference between using the Internet and the World Wide Web in that scenario.
4. Imagine you are explaining the difference between the Internet and the World Wide Web to a friend. How would you make the concept clear using everyday examples?
