## The Amazing Walking Leaf

### Open-Ended Response Answer Key

1. The walking leaf's camouflage is important because it helps them avoid predators by blending into their environment.
2. The tropical forest provides plenty of food and foliage, helping the walking leaf hide and survive.
3. If tropical forests were destroyed, walking leaves might lose their hiding spots and food sources, putting them in danger.
4. Studying walking leaves shows how animals adapt to survive, providing insights into how species evolve over time.
