## Weather Wizardry

### Open-Ended Response Answer Key

1. Answers may vary, but students might feel excited about having a friend with weather-controlling powers and suggest activities like creating a snowy day for sledding or organizing sunny picnics. Challenges might include accidentally causing unexpected weather changes.
2. Responses may vary, but students could share personal experiences of taking responsibility, such as caring for a pet, completing a school project, or looking after younger siblings. They could reflect on the lessons learned from these responsibilities.
3. Answers may vary, but students might use weather powers to benefit their town by ensuring favorable conditions for outdoor events, helping farmers with crops, or assisting in disaster relief efforts. Challenges could include balancing personal desires with community needs.
4. Sam's passion for weather and meteorology helped Sam understand the complexities of weather patterns and the impact of weather on the environment. Learning about their passion allowed Sam to use weather-controlling abilities responsibly, making informed decisions about when and how to use them. It's important to learn about one's passions because knowledge can lead to better understanding and responsible use of one's abilities and interests.
