Name _____

Surfing the Digital Waves: What is a Web Browser?

Short Answer

1. List two roles that web browsers play in your online experience.

2. Name one popular web browser and describe a unique feature or characteristic it has.

3. Explain the difference between a rendering engine and a JavaScript engine in a web browser.

4. Why is choosing a web browser a matter of personal preference, and what factors might influence your choice?

5. How would you describe the importance of web browsers in accessing the Internet and its content?
