Surfing the Digital Waves: What is a Web Browser?

Open-Ended Response Questions

1. Imagine a world without web browsers. How would our experience of the Internet be different, and what challenges might we face in accessing online information and services?
2. Discuss one specific feature or extension available in a web browser of your choice that you find particularly useful or interesting. Explain why it enhances your browsing experience.
3. Compare and contrast two different web browsers, highlighting their strengths and weaknesses. Which one would you recommend for specific tasks, and why?
4. Reflect on a time when a web browser helped you solve a problem or find valuable information online. How did the browser assist you, and what did you learn from the experience?
