

Name _____

What Do Whales Look Like?

Open-Ended Response Answer Key

1. Whales are majestic because of their size, grace, and unique adaptations to ocean life.
2. A blue whale is much larger than most animals, emphasizing its role as the largest animal ever to live on Earth.
3. Baleen whales filter small food from the water, while toothed whales use their sharp teeth to catch larger prey.
4. Their colors and patterns help them camouflage, communicate, or identify within their species.
