Name _____

What is a Galaxy?

Short Answer

1. What is the Milky Way, and what type of galaxy is it?

2. What is one theory about how galaxies form, and why is it called the "invisible puppeteer"?

3. How does the age of some galaxies provide insights into the early universe?

4. What role do stars in galaxies play in the creation of elements like carbon and oxygen?

5. How would you describe the diversity among different types of galaxies?
