## Treasures Beneath the Frozen Lake

### Open-Ended Response Answer Key

1. The friends' teamwork and determination played a crucial role in retrieving the hidden gemstones from beneath the frozen lake. They worked together to carefully chip away at the ice, using their ice skates. Their patience and coordination ensured that they were able to free the gemstones without causing any damage.
2. The discovery of the hidden treasure brought the friends a sense of accomplishment and joy because it connected them to the history of their town. They had uncovered a valuable piece of their town's past and shared it with the townsfolk, creating a sense of community and pride in their shared heritage.
3. The townsfolk reacted with awe and wonder when the friends returned with the gemstones. They were intrigued by the discovery and began researching the history of the lake to uncover the story behind the hidden gems. The townspeople's interest and involvement contributed to the exploration of the hidden treasure's history.
4. The discovery of the gemstones beneath the frozen lake might change the way the friends and their town view their winter adventures in the future. It could inspire them to seek out more hidden treasures and explore the history of their surroundings with a sense of curiosity and excitement. It also highlights the value of teamwork and determination in achieving their goals.
