## What Do Wolves Look Like?

### Short Answer Key

1. A wolf is about 26 to 32 inches tall at the shoulder.
2. Wolves have thick fur in colder climates to keep them warm during harsh winters.
3. A wolf's bushy tail helps it balance while running and communicate emotions.
4. Wolves' fur can be gray, black, white, reddish, or a mix of these colors.
5. Wolves use their sharp eyes and pointed ears to detect prey and stay alert to danger.
