

Name _____

Discovering the World of Architecture

Open-Ended Response Questions

1. Imagine you are an architect. What factors would you consider when designing a park for a community?
2. How do you think architecture might change in the future, given the advancements in technology and our growing awareness of environmental issues?
3. Choose one famous building from history (e.g., the Eiffel Tower, Taj Mahal) and explain why you think it is an architectural masterpiece.
4. Do you think it's important for architects to consider the cultural and historical context of a location when designing a building? Why or why not?
