

Name _____

Grazing Through the Grass: What Do Zebras Eat?

Short Answer Key

1. The main food that zebras eat is grass.
2. Zebras' teeth help them grab, chew, and grind tough grass to make it easier to digest.
3. Zebras live in herds while they graze to watch for predators and protect each other.
4. Besides grass, zebras eat leaves, shrubs, and bark.
5. Eating grass prevents overgrowth in the habitat, helping to maintain a healthy ecosystem.
