## Stripes in the Wild: All About Zebras

### Short Answer Key

1. Zebras belong to the equine family, which includes horses and donkeys.
2. A zebra's stripes are unique, like a human fingerprint, and may help them recognize each other.
3. Zebras can run up to 40 miles per hour.
4. Besides grass, zebras eat leaves and bark.
5. Zebras in a herd take turns keeping watch for predators.
