

Name _____

Unlocking Potential: Exploring Special Education

Short Answer

1. Explain the concept of inclusive education and its benefits for students with disabilities.
2. What is the purpose of an Individualized Education Plan (IEP), and how is it developed for a student with a disability?
3. Name two types of disabilities that special education addresses, and briefly describe the challenges students with each of these disabilities might face in a traditional classroom.
4. What additional support services, besides special education teachers, are available to students with disabilities?
5. Why is it important for schools to promote inclusive practices in education?
